

# Eden Rize

FRONTEND / FULL STACK DEVELOPER

## Profile

I am a Frontend / Full Stack Developer passionate about building clean, efficient, and user-friendly applications with React, Typescript, Node.js and more.

I am a German citizen.

## Employment History

### Frontend Developer, Monkeytech LTD, Tel Aviv

MAY 2024 – PRESENT

- Solely led the frontend development of multiple client projects, taking full ownership over architecture, implementation, and delivery.
- Defined coding standards and guided other frontend developers through task delegation and code reviews.
- Built responsive, accessible, and high-performance UIs using React, TypeScript, and React Native, based on Figma designs.
- Collaborated cross-functionally with designers, backend developers, and product managers to deliver high-quality features under tight timelines.
- Presented work to clients and communicated technical decisions clearly and effectively.

### Full Stack Developer, Kamer LTD, Tel Aviv

JAN 2024 – APR 2024

- Developed core backend features using Node.js and TypeScript, including business logic and API endpoints, deployed on AWS.
- Implemented key frontend components in React, such as user dashboards and admin panels, focusing on performance and usability.
- Collaborated closely with product and design to translate complex requirements into scalable solutions.

### Independent Full Stack Developer

OCT 2023 – APR 2024

- Developed and designed complete web solutions for small businesses. See some examples in my portfolio.

### Shift Manager, Wolt, Tel Aviv

OCT 2021 – SEP 2023

- Led shift operations, managing teams and ensuring smooth, real-time coordination between customers, couriers, and restaurants.
- Took initiative in resolving urgent issues under pressure, demonstrating strong problem-solving, prioritization, and communication skills.

## Education

### Full Stack bootcamp, "Coding Academy", Tel aviv

SEP 2023 – DEC 2023

- Hands-on program covering React, Vue, JavaScript, HTML, CSS, Node.js, Express.js, SQL, and PHP, including four full project sprints.
- Graduated from the Full Stack Development program with certification in web technologies.
