

Eden Rize

FRONTEND / FULL STACK DEVELOPER

Profile

I am an experienced Full Stack / Frontend Developer, adept at JS, React, Vue, Node.js and more. Here's a link to my personal website, [check it out!](#)

Employment History

Frontend Developer, Monkeytech LTD

MAY 2024 – PRESENT

- Developed and integrated frontend applications with backend systems for various client projects using **React** and **TypeScript**.
- Managed tasks and deadlines in a high-paced environment, consistently meeting dense timelines.
- Built responsive web applications aligned with **Figma** designs.
- Presented project demos to clients, effectively communicating technical features and project progress.
- Collaborated closely with designers, developers, and project managers.
- Practiced strong time and task management.

Full Stack Developer, KAMAR

JANUARY 2024 – APRIL 2024

- Developed Full Stack solutions using AWS, Node.js, TypeScript, and React.
- Ensured robust backend functionality with Node.js and TypeScript.
- Designed intuitive user interfaces with React.
- Contributed to timely project delivery, meeting client needs effectively.

Independent Full Stack Developer

DECEMBER 2023 – APRIL 2024

As an independent Full Stack developer, I specialize in building end-to-end websites for small businesses. Here's a link to a website I built for the tattoo and clothing artist "ZIVIZ", [check it out!](#)

Education

Coding Academy

2023

Completed Full Stack bootcamp at Coding Academy. Skills include React, Vue, JavaScript, HTML, CSS, Node.js, Express.js, SQL, and PHP. Emphasis on hands-on experience with four sprint projects. [Here's a link](#) to the final project's repository (an open source clone on "Monday")
