Eden Rize

FRONTEND / FULL STACK DEVELOPER

Profile

I am an experienced Frontend / Full Stack Developer, adept at JS, React, React native, Vue, Node.js and more. Here's a link to my personal website, check it out!

Employment History

Frontend Developer & Tech Lead, Monkeytech LTD, Tel Aviv

MAY 2024 — PRESENT

- Led frontend development across multiple projects, setting architecture and code standards.
- Developed applications with React, TypeScript, and React Native, ensuring seamless backend integration.
- Built responsive and accessible UIs based on Figma designs, optimized for performance.
- Collaborated with designers, backend developers, and product managers to meet tight deadlines.
- Presented demos to clients and stakeholders, clearly communicating technical solutions.

Full Stack Developer, KAMAR

JANUARY 2024 — APRIL 2024

- Developed Full Stack solutions leveraging AWS, Node.js, TypeScript, and React.
- Ensured robust backend functionality with Node.js and TypeScript.
- Designed intuitive user interfaces with React.
- Collaborated with cross-functional teams to enhance application performance.
- Implemented best practices for code quality and maintainability.

Independent Full Stack Developer

OCTOBER 2023 — APRIL 2024

As an independent Full Stack developer, I specialize in building and maintaining end-to-end websites for small businesses. Here's a link to a website I built for the tattoo and clothing artist, "ZIVIZ", check it out!

Education

Full Stack bootcamp, Coding Academy

SEPTEMBER 2023 — DECEMBER 2023

Successfuly completed the Full Stack bootcamp at Coding Academy. Skills include React, Vue, JavaScript, HTML, CSS, Node.js, Express.js, SQL, and PHP. Emphasis on hands-on experience with four sprint projects.
